52.212-2 Evaluation-Commercial Products and Commercial Services. (Nov 2021)

EVALUATION - COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (Nov 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered, and a trade off analysis will be conducted. The following factors shall be used to evaluate offers: Technical, Past Performance and Price. It may be in the best interest of the Government to consider award to other than the lowest priced Offeror or other than the highest technically rated Offeror. Technical and Past Performance are equal in importance. Technical and Past Performance, when combined, are significantly more important than Price.

Technical factors will be evaluated and rated based on the following adjectival ratings:

<u>Adjectival Rating</u>	<u>Description</u>
Outstanding unsuccessful	Proposal demonstrates an exceptional approach and understanding of the requirements and and risk of performance is low.
Good performance is low to	Proposal indicates a thorough approach and understanding of the requirements and risk of unsuccessful moderate.
Acceptable and risk of	Proposal meets requirements and indicates an adequate approach and understanding of the requirements, unsuccessful performance is no worse than moderate.
Marginal unsuccessful	Proposal has not demonstrated an adequate approach and understanding of the requirements, and/or risk of performance is high.
Unacceptable unawardable, and/	Proposal does not meet requirements of the solicitation and, thus, contains one or more deficiencies and is or risk of performance is unacceptably high.

Past Performance relevancy and confidence assessment will be evaluated and rated based on the following adjectival ratings:

<u>Adjectival</u>	<u>Rating Description</u>
Very Relevant complexities this	Present/past performance effort involved essentially the same scope and magnitude of effort and solicitation requires.
Relevant solicitation	Present/past performance effort involved similar scope and magnitude of effort and complexities this requires.
Somewhat Relevant	Present/past performance effort involved some of the scope and magnitude of effort and complexities this solicitation requires.
Not Relevant this	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities solicitation requires.

<u>Adjectival Rating</u>	<u>Description</u>
Substantial Confidence Offeror	Based on the Offeror's recent/relevant performance record, the Government has a high expectation that the will successfully perform the required effort.
Satisfactory Confidence that the	Based on the Offeror's recent/relevant performance record, the Government has a reasonable expectation Offeror will successfully perform the required effort.
Neutral Confidence	No recent/relevant performance record is available or the Offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The Offeror may not be evaluated favorably
Limited Confidence Offeror	or unfavorably on the factor of past performance. Based on the Offeror's recent/relevant performance record, the Government has a low expectation that the will successfully perform the required effort.
No Confidence Offeror	Based on the Offeror's recent/relevant performance record, the Government has no expectation that the will be able to successfully perform the required effort.

Factor I - Technical Approach: The Technical Approach will be evaluated based on the Offeror's demonstrated ability to perform the requirements of the PWS. The following four sub-factors are of equal importance and will be individually rated:

Sub-factor 1: Key Personnel (PWS 1.12)

The Government will evaluate the resumes of the proposed key personnel to determine whether they meet the minimum qualifications and experience levels, as set forth in PWS Section 1.12, and the availability of the proposed Contract/Program Manager and designated alternate. Note: the resumes should clearly describe how the proposed key personnel met the minimum experience and qualification requirements. In addition, the government will evaluate the extent to which the resume demonstrates relevant leadership experience, ability to manage multiple functional areas, and proposed personnel's ability to meet the responsibilities identified in PWS Section 1.12.

Sub-factor 2: Staffing Plan (PWS 5.8)

The Government will assess the adequacy and feasibility of the Offeror's staffing plan, including proposed staffing levels and labor categories, to successfully complete the tasks throughout the PWS. Evaluation will include the Offeror's ability to maintain required staffing levels and fill vacancies in a timely manner.

Sub-factor 3: Transition Plan (PWS 1.6.1.1 and 1.6.1.2)

The Government will evaluate the Offeror's approach to both transition-in and transition-out. A successful proposal will demonstrate a clear, realistic, and low-risk plan for ensuring continuity of services without performance degradation or disruption.

Sub-factor 4: Management and Quality Assurance (QA) Approach (PWS 1.10)

The Offeror's approach to managing, monitoring and maintaining quality control to ensure quality for effective contract performance will be evaluated. This includes the Quality Control Plan (QCP), as referenced in PWS Section 1.10.1, and the Offeror's ability to proactively monitor, correct, and prevent performance issues.

Factor II - Past Performance: The Government will consider the Offeror's record of relevant and recent performance on similar contracts as noted below. Only performance under relevant and recent records will ultimately be assessed as to their quality in arriving at the overall past performance rating. The evaluation will follow a process:

1. **Relevance** - The government will determine whether the past efforts are similar in magnitude, scope, and complexity, as aggregated together, to this requirement. If they are, the quality (i.e., how well the Offeror performed under the effort) of the past efforts will then be assessed, if they are also recent. Note: Offerors with no recent past or present performance history or the Offeror's performance record is so limited that no confidence assessment rating can be reasonably assigned will receive a rating of "Neutral Confidence," meaning the Offeror is treated neither favorably nor unfavorably (neutral). For the purpose of evaluation, a "Substantial Confidence" or "Satisfactory Confidence" past performance rating is worth more than a "Neutral Confidence" rating with regards to the tradeoff analysis and best value determination.

2. **Recency** - The Government will determine whether the past performance efforts are within the last three (3) years from the date of the solicitation. If they are, the past efforts will be assessed as to the relative quality of the past performance, if they are also relevant.

3. **Quality** - The government will assess the quality of Offeror's past performance based on the reference feedback available to the Government. Additionally, the government may use CPARS and other sources of information available to the government to assist in assessing confidence on one or more of the past efforts.

4. Confidence Assessment - An evaluation of how well the Offeror performed (i.e., the "quality" of the past performance) on the identified relevant contracts.

Factor III - Price: Price proposals will be evaluated for reasonableness in accordance with FAR 15.404-1. Price will not be assigned an adjectival rating. Price proposal shall only include the required pricing sheet provided as an attachment to the solicitation. Please note: Travel CLINS in the pricing sheet are pre-priced and should not be changed.

While the Government does not intend to engage in interchanges, the Government reserves the right to conduct interchanges if deemed in its best interest. However, Offerors are reminded that the Government may make award based solely on initial Offers.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)
